

SAQA ID: 57831

LP: N/A

NQF Level: 3

Minimum Credits: 136

Training Days: 25

Assessment Days: 25

Total Contact Days: 50

Accreditation Body: TETA

E-Learning Days: N/A

Workplace Experience: 10 Months

Self-study Days: N/A

Qualification Description:

The safe handling of freight is dependent upon the relevant people complying with the specific procedures and applying the necessary skills to their handling. This Qualification, therefore, is aimed at providing delegates in the Freight sector with an integrated practical and theoretical grounding in Freight Handling.

Programme Structure:

Classroom-based Interactive Learning
Workplace Learning
On-the-Job Coaching & Mentoring
Theoretical Assessment & Practical Workplace Observation

Qualification Purpose:

People involved in freight handling play a key role in the movement of goods since they represent the physical link that ensures that the freight is efficiently and safely handled. The required knowledge and skills can be used in many other goods handling environments or equally as well in a full warehousing environment. On-the-job experience can progressively lead to positions of more responsibility in the safe handling of goods and freight.

Qualification Target Group:

This qualification is likely to be beneficial to either unemployed individuals wishing to enter the industry, or to people currently working in the greater freight handling sector that wish to improve their skills and enhance their own career path opportunities.

Minimum Entry Requirements:

Competent in Communication (English) at NQF Level 2
Competent in Mathematical Literacy at NQF Level 2
Should delegates have completed Matric / Grade 12 with 2 official South African languages and mathematics, a Credit Allocation Transfer will be completed for the Fundamental Unit Standards

Workplace Requirements:

The delegates should have access to or already work in the in the Transport Sector environment specifically in Warehousing and Distribution.
Access to a Computer and Telecommunications Equipment.
An allocated Workplace Mentor / Supervisor

Qualification Outcomes:

- On completion of this qualification, the delegate should be able to:
- Understand the principles of the Freight Handling business in South Africa.
 - Understand the composition of the supply chain in the transport industry.
 - Understand legislated and company required health, safety, environmental and security practices.
 - Act responsibly when handling freight.

QUALIFICATION ROLL-OUT
